A voice that demonstrates real causes and affects with proof and accountability

Asbury Park, New Jersey- There are sharp contrasts between Islamic Teachings and what many Americans believe. Even though Wahaabism and Salafism have been juxtaposed and made synonymous with evil and criminal ideologies, a true understanding of who exactly was Muhammed bin Abdul Wahaab and what exactly is Salafism is lacking. This leaves the general masses of Americans, Muslims or non Muslims, to blindly depend on a distorted images of Islam.

Our voice of Truth, Justice, and Peace is a discourse based strictly upon classical Islamic sources aimed to educate all Americans, especially Muslims, to understand Islam without bias and intolerance. We are not inviting you to listen to rhetoric used by organization-dependent spokespeople, politicians, elected officials, media representatives, or press secretaries. Instead, we aim to provide you with an experience that you will remember, learn from, and reflect upon in a manner rarely offered to the American public before with the following confirmed speakers and topics:
